PROFESSIONAL SUMMARY

Python Developer with hands-on experience in building web applications using **Python, FastAPI, REST APIs, and SQL**. Strong in **Data Structures & Algorithms, OOP, and SDLC**, with a focus on problem-solving and efficient development. Skilled in **Git, GitHub, Postman, and API integration**, with knowledge of **React, AI/GenAI, RAG, and AI Agents**. Ready to build reliable and scalable software solutions.

WORK EXPERIENCE

• Python Programming Intern CODSOFT

July 2026 - Aug2026

- **Task Management System:** Built a Python application implementing **4 core CRUD operations** (Create, Read, Update, Delete) using **File Handling and OOP** principles for persistent task storage.
- **Calculator Application:** Developed a modular calculator supporting **8+ arithmetic operations**, using **Functions, Input Validation, and Exception Handling** to prevent runtime crashes from invalid input.
- **Password Generator:** Built a customizable password generator supporting **4 character types** (uppercase, lowercase, digits, symbols) and variable password lengths using **Python's Random and String libraries**.

PROJECTS

• Smart Ration Queue System

[GitHub](#)

MongoDB, Express.js, React.js, Node.js, AI, Leaflet.js

Developed a **MERN stack** application for digital ration booking with **AI-based scheduling** to reduce physical queues. Integrated **Leaflet.js** for real-time supply tracking and a **multilingual AI chatbot** for user support. Built a **React dashboard** for real-time inventory analytics and operational transparency.

• AI Form Filler

[GitHub](#)

Python, JavaScript, REST APIs, OpenAI, Gemini, Prompt Engineering

Built an AI-powered Chrome Extension to automate web form filling and reduce manual data entry. Integrated **OpenAI and Gemini LLM APIs** through **REST APIs** and applied **Prompt Engineering** to generate accurate, context-aware responses for form fields.

TECHNICAL SKILLS

- **Languages** : Python, JavaScript, SQL
- **Backend** : FastAPI, REST APIs, MySQL
- **Frontend** : HTML, CSS, React.js
- **AI & GenAI** : LLMs, Gemini API, RAG, Embeddings, Vector Databases, AI Agents
- **Tools & Deployment** : Git, GitHub, Postman, VS Code, Vercel, Netlify
- **Soft Skills** : Problem Solving, Analytical Thinking, Adaptability, Teamwork, Time Management

EDUCATION

Bachelor of Technology - Information Technology
Kings Engineering College, Anna University **CGPA: 7.54**

9/2022 – 5/2026

CERTIFICATIONS

- **Claude Code in Action** – Anthropic Academy, Jul 2026
- **100 Days of Code: The Complete Python Pro Bootcamp** – Udemy
- **Machine Learning using Python** – Udemy, Aug 2025
- **SQL Bootcamp + 50 Practice Questions** – Udemy, Jul 2025

ACHIEVEMENTS

- Solved 25+ problems on LeetCode, covering data structures, algorithms and problem-solving in Python
- Captained the department cricket team to the finals of the intra-college tournament, demonstrating leadership, teamwork and strategic decision-making under pressure
